

STANDALONE MONITORING & POLLUTION PREVENTION

ToggleBlok® is a fully automated, self-powered monitoring and shut-off system that detects contamination and instantly stops polluted runoff before it leaves your site.

- ✓ **STANDALONE & SOLAR-POWERED**
No external power or noisy generators needed
- ✓ **RAPID DEPLOYMENT**
Installed in a day with full support & servicing
- ✓ **NO LARGE UPFRONT COST**
Flexible, budget-friendly leasing
- ✓ **REAL-TIME WATER MONITORING**
Tracks pH, turbidity & oil levels
- ✓ **INSTANT ACTION**
Closes in under 10 seconds when contamination is detected

HOW IT WORKS

MONITOR
